KeepsgettingbetterLovethisseries. The Exodus: Empires at War series had a slow start. Like what is going to happen next, will anyone be able to stop the alien invasion, and what about the crew of the International space station?

The dire nature of the narration soon knocks that into a cocked hat. The series trying to escape with them, Simon is killed by a new type of alien creature, and Ben is infected and begins to change into some sort of alien hybrid. Moving on to the next book!
