Shef, Doug and Jack: Sorry, I saw posts out of sequence.

Multiplication of fractions does not require the fractions to have common denominators.

They also need to order set of fractions by converting them to fractions with

Once the fractions have a common denominator, subtract the numerators, and the result goes over the common denominator.

Related Posts. The same amount is still shaded, but now we have tenths.

First they tried to overturn the sale, but a bit of court work ended. I have been

2 no longer divides, divide by 3.
